Background of the Project

Commonwealth Educational Media Centre for Asia signed a contract with Siliguri Global Engineering Institute for skilling the youth of Kashmir, especially from marginalised communities with special focus on women for becoming self-employed tailors. Siliguri Global Engineering Institute through their MOU with J&K Institute of skill development and research centre, mobilized youth in Kashmir, such that a total of 90 unemployed women were to complete a 3 months' training course in becoming Self-employed tailors.

Report of the Training

The training was conducted from 20th November 2014 till 20th March 2018, followed by assessment and certification for the youth trained who were given certificates at the end. On 7th March 2018, J&K Institute of Skill Development & Research Centre in association with CEMCA organized a workshop for the trainees undergoing Skill development training for 'Self Employed Tailor' in Sumbal Sonawari, District Bandipora. Dr. Shahid Rasool, Director of CEMCA was the Chief Guest at the event and he spoke about the need of skill development & Education in the society especially for women. He said that if we need to get rid of poverty & want to make society devoid of problems, then we should give skills to our hands, which can make life of the people better in the society.

The Master Trainers for the duration of the training were Zareena Akhter and Shaheena Bano, while the trainers were Bilkeesa Bano, Neelofar Jan and Zareefa Bano. The market linkages were overlooked by Arif Hussain for this duration. The Centre Head was Fida Hussain, while the Advisor for the project was Hilal Ahmad.

The project began with the conduction of the orientation workshop where the trainees were enrolled and the training programme was explained to them. After a suitable place of training with good infrastructure was arranged, a training calendar to manage the training was created and published. J&K Institute of skill development and research centre (JKISDRC) also conducted the Training of Trainers through the Apparel, Made-Ups & Home Furnishing Sector Skill Council. The trainers were assessed and certified by the Sector Skill Council. JKISDRC provided for training infrastructure in an accessible and appropriate training venue, and supplied required tools, equipment and consumables for the training. The new initiatives for the project were handled by Aijaz Batoo.

As part of the project, the first commercial unit was started, where 6 trainees and 1 master trainer took forward the operations of the unit. The first commercial unit received the work order of 600 uniforms (apron coat) from **Shajaar foundation**, where the unit will be delivering 200 uniforms (apron coat) in the initial phase of operations. Rest of the uniforms will be delivered in 2nd phase of operations after getting the satisfactory response from client. In the coming months, more & more commercial units will be established by J&K Institute of skill development and research Centre. Also, JKISDRC is striving to set up one big production unit and one showroom through which they can supply the products in different markets of Jammu & Kashmir.

Way Forward

As part of the project, J&K Institute of skill development and research centre has committed to scale up the training at their own expense to another 270 women over the entire year, for which they plan to identify the locations where they can set up the production unit and showrooms. Also, their team is planning a visit to Gujarat in the near future in order to tie-up with companies there for supply of raw materials.

J&K Institute of skill development and research Centre will continue its training operations for unemployed woman in underserved areas. They plan on adding more trades, especially knitting, for which there is a huge scope in the Kashmir valley.
