

Open Educational Resources (OER)

The term "OER" was first coined to describe associated resources at UNESCO's 2002 Forum on Open Courseware which determined that, "Open Educational Resources (OER) are learning, teaching and research materials in any format and medium that reside in the public domain or are under copyright that have been released under an open license, that permit no-cost access, re-use, re-purpose, adaptation and redistribution by others".
